

Take him to Saturn and back before lunch.

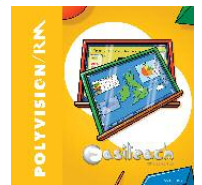

You won't need a rocket to explore the galaxy if your classroom is equipped with a Walk-and-Talk™ interactive whiteboard from PolyVision.

PolyVision's Walk-and-Talk is the world's only interactive whiteboard with:

- **PolyKey™ Technology for instant plug-and-play** and an
- **intuitive remote control** so you can move amongst your students while navigating all board applications.

For lessons that are out of this world, Becta-compliant Walk-and-Talk boards come with Easiteach® Studio software by RM. Simple to learn and use, Easiteach includes all the essential tools needed to create interactive lessons throughout the curriculum.

Call (0)7780 651428 or visit www.polyvision.com/uk for information on getting a Walk-and-Talk board into your classroom.
